Judge

District Court:

Civil Case:

COMPLAINT

I am righting you as among other things I did receive three speeding tickets in Utah in a week's period. If you remember, the office staff was unable to bring it up on the web or the computer. I thank the park city court for seeing me and not allowing a snafu to turn into a warrant. Let me also say, that I am 44 and I off all people realize that I cannot go back or undue history, but I wish to move forward. I have reason to believe, that over the years, my family and especially me may have been the victim of electronic surveillance such as wire taps on land and cell phone's, especially 65 Easton Lane Moreland Hills Ohio. Email, cell phone location, credit card and physical surveillance. I have made several inquiries, and the evasiveness and failure to respond from such high level people as governors and senators indicates that there is credibility to these claims. I am aware that this could be anyone from a neighbor who has my email password, to someone somewhere on a law enforcement or government payroll who is out of line, to foreign government screwing around on a large scale. I have no idea. It is what it is. The improper use off this information, as well as improper orders buy people seen as senior to me in my place off work, business or schools has done me harm. I'm 44, know very few people, and am not with any one at the moment. I was with JP Morgan for 7 years. It was clear that my immediate supervisors didn't want me socializing with people in the office, and I believe that women in new York were told not to see me as it might affect their position with the firm. Rumors were also spread around the office that I did not have a college degree, which is not true. There has been a long history off this behavior surrounding me. If you need more information, I would be happy to elaborate. I believe that you will find special files documenting this.

I am not as much interested in know what did this, but how to move forward. I believe that each off the organization that this happened in is liable civilly for allowing this to happen. JP Morgan, Google, Verizon, Facebook, and Microsoft are all very large publically traded companies. It would be very easy for them to issue stock/options in an adult sum 200-300mill without a diluting the float. Also, I believe that the state of Montana, Gallatin County, Bozeman Deconies hospital, state off ohio, Cuyahoga county are also liable.

Could you also please investigate my exact legal state. I was born in Ohio, I believe I may have been upgraded to employee off an intelligence agency, possible NSA for legal purposes. My understanding is that it is illegal to release names or pictures off these people publicly. If this has been done, could someone brief me any other rights/issues that are involved with this. Can I also claim diplomatic immunity? Can someone explain the intricacies off this if this status has been granted.

For the purposes of health care claim veteran benefits. I have been milked several times, the long term effects are unknown. Could someone point me to a DR that would be able to asses this.

There have been big, casually dressed people staked out at my big sky post office when I returned from a vacation, possibly from the result off obtaining my travel itinerary. I don't think he was sure I was the person he was looking for, I was not driving my convertible. I realize that this could happen again in the future. Can you let me know If and how I can identify myself as active duty military, or law enforcement for the purposes of carrying a concealed weapon. I would like to avoid confrontation or charges from police, but under the circumstances, it might be nice to be able to carry concealed if I thought something might happen.

Also, it would be nice to have some kind off number to someone in government, that could help with special security problems, and provide information off where to locate in the USA. I like to ski, but if say Wyoming or Colorado would be a better place to be under the circumstances rather than Park City, it would be helpful to know this.

I realize that I'm 44, and events might catch up with me at a later date. If my health returns, I might at some point be interested in working again, possibly for a government agency. If nothing else than to get away from waitresses and lift operators.

Please let me bring to your attention I have submitted two complaint to the Montana Medical review board. They allegedly reviewed them, behind my back and came to some ruling without me even behind allowed to hear who or what was presented to the panel. The transcripts of the hearings have been destroyed, fabricated or not reviewable buy me or an independent court. I noticed that the Gallatin county sheriff and the CEO of Bozeman Hospital retired around the times off these hearings. I wonder if there is any connection to these events. I get a stone wall. I have also made several complaints to local laws enforcements about vandalizimin etc that occurred on my property. The officer has repeatedly refused to get back to me. And had refused to respond as what steps have been taken to

investigate or put a stop to this. He has simply done nothing. I have complained to the undersheriff about this. He simply does not respond in any detail.

Some one opened a face book account in my name. My address book was mined. I did try to report this and several other computer related crimes to local Vegas police. My credit cards were used fragelently and canceled 4-5 times etc. These all went investigated . I have received packages and emails that were obviously fictitious. They were obvious lures to receive my name and address. These have finally stopped. I have also been surrounded buy many older people, such as lawyers, and a retired doctor I met in Rotary. I have been sleared publicly and accused of being a Madof without ever being accused off a crime or a day court. I have also been told informally that I should not use my property bye this smartas retired doctor. It is my belief that some people have made statements to some type off law enforcement entity which have done me harm. I believe that they are factless. If you could assist in finding them, it would be further basis for the suite. I would be happy to provide further details. I have approached the local Agencies, such as Montana State attorney general office, Governor's office, Galatian county sheriff. They have simply refused to respond and I have never gotten buy there secretaries. I am not sure why this is. I have no criminal record worse than traffic tickets. If they have penciled something in, or presented a different Pearson records to justify this, this would provide further marret for a suite. People especially refuse to schedule appointments and respond when I use email. This would be an easy question to ask Google and Microsoft.

Could you point me in the right direction to answer these question?

I'm currently in dc. I would be happy to be available to any one hear, in Utah, either on the phone or in person. I do have some savings, but will shortly run out. I believe that this is the hope off many people.

Judge. At this point, I believe local DC law enforcement would like a court order to be compelled to investigate. I am available, I do have some money for my own counsel, and would be happy to provide any more detail or direction on where to look for records or on how to proceed.

I would like to note, that all Jobs interviews have vaporized as if there were something derogatory or as if someone has told people that I am the subject off an on going investigation. I am aware of nothing. I have been sent a letter from a lawyer on a minor issue to one off my email that came back returned to sender because it was addressed to a physically different address. The lawyer refused to tell me where she got the email from. I have continually been put next to a single older person, in plain close that is my friend. If he is fishing or made statement based on his title as DR or Rotary member to any official agency, like judges, fbi, police etc. I would like to know about this. I have not been formally approached or served. This has caused me great harm. I have went several years without a pay check. I believe that this was there intention. I have been denied access to local law enforcement, and medical treatment. I would like to know what court order did this, who obtained this. And if possible be compensated for their statement. I might think off pulling rotaries charitable operating license. I have been repeatedly

asked to go on social outings and then pumped for details about my business and experiences working on wall street in a social and plain close environment. The local authorities have done nothing to stop this or compensate me for this damage.

Thank You for your assistance.
