Youtube / Google

Dear Judge Gibney

Again this case is in relations to case number 3:16cv-756. Youtube allows my work to be compromised and NOT removed by the individuals in case 3:16cv-756. I've ON several times told youtube to remove the edited, defamatory videos and they refuse to. They enable these individuals to continue the bantor and harassment. They also allow my intellectual property to be mislead by the individuals in the other case. They claim its fair use and its not. My intellectual property is of my show the "Gorgeous George Show". I've stated to them that my work was being stolen without my permission and I was being cyber stalk. Videos with the ~~that~~ individual going into great detail about my bankruptcy and calling my phone at all hours of the night to stalk me. My cell phone is on there as well and youtube will NOT remove it. Plus a phone conversation was recorded and placed on youtube with one the people I'm seeing making the call.

Continued PAGE 2

3:16-cv 971

There are pictures with my face at cementary doing sexual content which ~~is~~ inappropriate and being lude. Harassing me by taking pictures of me in certain demeaning situations. Although Youtube is not doing this ~~themselves~~ themselves they are allowing it by keeping it up. So Copyright infringement and harassment is being created and they are enabling the cyberstalking.

My wish and relief is for youtube to be aware of this and remove the items and videos in question. I'm also seeking million dollars in monetary damages and pain and suffering, Defamation of character, slander and libel through videos in question.

I'm using the same case law in case 3:16-cv 756 to apply in this case. I appreciate your consideration in this hard and trying matter

Respectfully Yours

George [Signature]
