1st Lawsuit (Lawsuit against illegal Monopolies)

Executive Sustainable Energy Lawsuit

- Lawsuit against Johnson & Johnson, Amazon.com,
- Google, 3 major car insurance companies (State Farm,
- GEICO, Progressive), Exxon ^{cell phone companies} Mobilx for financially abusing
- police, F.B.I., and I.R.S. into failing to investigate
- defamation of character spying abuse to attempt to
- disable my abilities (and disadvantaged people's
- abilities) to raise a family, take care of parents/relatives
- while working to be employed adequately and educated
- with college degrees with the I.R.S./Casinos/Sales/
- Businesses. I am uncertain that I will be paid
- enough to be able to pay taxes (obtaining living-
- wage).

- I propose the I.R.S., police, and F.B.I.
- make ongoing sustainable energy investigations to
- increase taxes on toxic energy and make
- tax deductions on sustainable energy. Let us
- also vote for who works for the I.R.S.
- and guarantee temporary employment with the
- I.R.S. part-time for 10-20hrs a week
- at 50% of the living wage.

- Lawsuit against illegal monopolies
- forcing me to work for student debt with
- no adequately paid apprenticeship program.

Widner University appears to be the only law school in Delaware and may be unfairly enhancing their character by spying and defaming my character.

attached is student debt amount.

Widner University threatened to have me arrested if I went to use their law library and seek a pro bono attorney.

Civil Case Information Sheet Caption

[There are monopolies (most likely religious) constantly
- spying on me and stealing from me and claiming that
- I am mentally ill for not participating in their religion
- (most likely) I will need a pro bono attorney, public
- defender, pro bono investigator, and pro bono security
- system to defend against ongoing defamation of
- character financial abuse and espionage "death
- sentence" of incrimination homelessness and
- inadequate housing.

I don't know the exact codes these
- companies are violating but I still need a
- trial scheduled to determine whether there
- needs to be amendments to laws, petitions,
- proposals, or voting rights restored.

It seems to be fairly clear judging
- by the better business bureau that there appears
- to be illegal abusive monopolies defaming character
- of minorities and/or majorities of various religions,
- races, genders, orientations with identify manipulation
- employment programs to force an orientation and
- create unnecessary birth defects through
- marriages without the right to vote.

I have 3 separate lawsuits for
- each branch of the government
1st - Executive Sustainable Energy Lawsuit
2nd - Judicial Recycling Materials Lawsuit
3rd - Legislative Vertical Farming Forestry Lawsuit
