UNITED STATES DISTRICT COURT  
NORTHERN DISTRICT OF CALIFORNIA  
SAN JOSE DIVISION

DANIEL MATERA,  
Plaintiff,  
v.  
GOOGLE INC.,  
Defendant.

Case No. 15-CV-04062-LHK

**ORDER DENYING PRELIMINARY  
APPROVAL OF CLASS ACTION  
SETTLEMENT**

Re: Dkt. No. 62

Plaintiffs Daniel Matera and Susan Rashkis (“Plaintiffs”) sue Defendant Google Inc. (“Google” or “Defendant”) for violations of the California Invasion of Privacy Act (“CIPA”), Cal. Pen. Code § 630, et seq., and violations of the Electronic Communications Privacy Act (“Wiretap Act” or “ECPA”), 18 U.S.C. §§ 2510, et seq. Before the Court is Plaintiffs’ motion for preliminary approval of class action settlement. ECF No. 62 (“Mot.”). The Court held a hearing on this motion on March 9, 2017. Having considered Plaintiffs’ motion, the arguments of counsel at the March 9, 2017 hearing, and the record in this Case, the Court DENIES Plaintiffs’ motion for preliminary approval of class action settlement.

**I. LEGAL STANDARD**

Federal Rule of Civil Procedure 23(e) provides that “[t]he claims, issues, or defenses of a

1 certified class may be settled . . . only with the court’s approval.” Fed. R. Civ. P. 23(e). “The  
 2 purpose of Rule 23(e) is to protect the unnamed members of the class from unjust or unfair  
 3 settlements affecting their rights.” *In re Syncor ERISA Litig.*, 516 F.3d 1095, 1100 (9th Cir.  
 4 2008). Accordingly, in order to approve a class action settlement under Rule 23, a district court  
 5 must conclude that the settlement is “fundamentally fair, adequate, and reasonable.” *Hanlon v.*  
 6 *Chrysler Corp.*, 150 F.3d 1011, 1026 (9th Cir. 1998).

## 7 **II. DISCUSSION**

8 Google intercepts, scans, and analyzes the content of emails sent by non-Gmail users for  
 9 the purpose of creating user profiles of Gmail users to create targeted advertising for Gmail users.<sup>1</sup>  
 10 This fact is not disclosed in Google’s operative Privacy Policy or Terms of Service.<sup>2</sup> In fact,  
 11 neither document mentions non-Gmail users at all. *Matera v. Google, Inc.*, 2016 WL 5339806, at  
 12 \*18 (N.D. Cal. Sept. 23, 2016) (noting Google’s operative Terms of Service and Privacy Policy  
 13 “make[] no mention of non-Gmail users”). Moreover, the parties’ class action settlement for  
 14 which they seek preliminary approval from the Court fails to require Google to disclose this  
 15 information. *See* ECF No. 62-1 (“Settlement Agreement”). The settlement provides for only an  
 16 injunction, a release of the class’s claims, and a request for \$2.2 million in attorney’s fees. *See id.*  
 17 at ¶¶ 34, 58.

18 In support of the settlement, Plaintiffs contend that the injunction will bring Google into  
 19 compliance with the Wiretap Act and the CIPA. Mot. at 4. Further, Plaintiffs state that the  
 20 settlement will provide a notice to the class that provides sufficient disclosures to the class of  
 21 Google’s email scanning practices. *See* ECF No. 70 (“H’rg Tr.”), at 3. The notice to which  
 22 Plaintiffs refer is notice that Plaintiffs are required to provide the class in order to obtain final  
 23

---

24 <sup>1</sup> Currently, the record is not entirely clear on whether and when Google intercepts, scans, or  
 25 analyzes outgoing emails sent from Gmail users to non-Gmail users. *See* ECF No. 62-1  
 (“Settlement Agreement”), at ¶ 34.c (noting that “Google will *refrain*,” rather than “eliminate” any  
 26 processing of outgoing email sent by Gmail users (emphasis added)).

27 <sup>2</sup> The Court’s September 23, 2016 order granting in part and denying in part Defendant’s motion  
 to dismiss based on lack of standing analyzed Google’s April 14, 2014 Terms of Service and  
 28 December 19, 2014 Privacy Policy. At the March 9, 2017 hearing, the parties confirmed that  
 those are the operative documents on this issue. H’rg Tr. at 3.

1 approval of the class action settlement. *See* Fed. R. Civ. P. 23(e)(1) (“The court must direct notice  
2 in a reasonable manner to all class members who would be bound by the proposal”); ECF No. 62-  
3 1 (“Notice”). This proposed class settlement notice states the following:

4 In the settlement, Google has agreed to insure that all incoming  
5 email to Gmail users and all outgoing email from Gmail users is  
6 processed in a manner that plaintiffs and Class Counsel agree does  
7 not violate CIPA or the Wiretap Act. Specifically, (1) for incoming  
8 email, Google will eliminate any processing of email content that it  
9 applies prior to the point when the Gmail user can retrieve the email  
10 in his or her mailbox using the Gmail interface (currently, this  
11 occurs when the email is stored in the “Tingle” server) that is used  
12 for the distinct purpose of advertising and creating advertising user  
13 models; (2) with regard to any information generated by other  
14 processing of email content that Google applies before the Gmail  
15 user can retrieve the email in his or her mailbox using the Gmail  
16 interface, Google will not use or access such information for the  
17 purpose of serving targeted advertisements or creating advertising  
18 user models until after the Gmail user can retrieve the email in his or her mailbox  
19 using the Gmail interface.

19 Notice, at 2.

20 This notice is difficult to understand and does not clearly disclose the fact that Google  
21 intercepts, scans, and analyzes the content of emails sent by non-Gmail users to Gmail users for  
22 the purpose of creating user profiles of the Gmail users to create targeted advertising for the Gmail  
23 users. Moreover, the notice does not clearly disclose what technical changes the settlement  
24 requires. At the preliminary approval hearing, the parties explained that the injunction would  
25 prohibit Google from scanning in transit email for the *sole* purpose of collecting advertising data,  
26 but would allow Google to scan incoming in transit email for the “dual purpose” of (1) detecting  
27 spam and malware and (2) obtaining information that would be “later used for advertising

1 purposes.” H’rg Tr. at 26 (emphasis added). Specifically, once the email is in storage, the  
2 injunction allows Google to access the “metadata generated *during the spam scanning process*”—  
3 which was collected while the email was in transit—and use that metadata “for advertising  
4 purposes.” *Id.* at 27 (emphasis added). The “dual purpose” to which Plaintiff refers is not clearly  
5 disclosed in the notice to Class Members. *See* Notice, at 2.

6 Further, it is not clear that the “dual purpose” will bring Google into compliance with the  
7 Wiretap Act and CIPA. *See Backhaut v. Apple, Inc.*, 74 F. Supp. 3d 1033, 1042 (N.D. Cal. Nov.  
8 19, 2014) (noting that the “Wiretap Act protects communications in transit” and “generally  
9 prohibits the ‘interception’ of ‘wire, oral, or electronic communications’”); *NovelPoster v.*  
10 *Javitch Canfield Grp.*, 140 F. Supp. 3d 938, 954 (N.D. Cal. 2014) (“The analysis for a violation  
11 of CIPA is the same as that under the federal Wiretap Act.”). Plaintiffs’ motion for preliminary  
12 approval provides no authority as to whether or why the injunction’s “dual purpose” interception,  
13 scanning, and analysis of in transit emails brings Google into compliance with the Wiretap Act or  
14 CIPA. *See generally* Mot.

15 Accordingly, the Court DENIES Plaintiffs’ motion for preliminary approval. The notice to  
16 Class Members, which is the only form of disclosure that Class Members will receive under the  
17 settlement, is inadequate. The notice does not clearly disclose that Google intercepts, scans, and  
18 analyzes the content of emails sent by non-Gmail users to Gmail users for the purpose of creating  
19 user profiles of the Gmail users to create targeted advertising for the Gmail user. It does not  
20 disclose that Google will scan the email of non-Gmail users while the emails are in transit for the  
21 “dual purpose” of creating user profiles and targeted advertising and for detecting spam and  
22 malware. Moreover, because Plaintiffs’ motion cites no case law and provides no argument as to  
23 whether the “dual purpose” scanning permitted under the settlement is lawful under the Wiretap  
24 Act and CIPA, it is not clear to the Court at this time that the technical changes that the settlement  
25 provides brings Google into compliance with the Wiretap Act and CIPA, as Plaintiffs assert.

26 Plaintiffs continue to argue that this settlement is no different than the settlement in *In re*  
27 *Yahoo Mail Litigation*, 2016 WL 4474612 (N.D. Cal. Aug. 25, 2016). However, every case and

1 every settlement are different. The *Yahoo* settlement took place after more than two years of  
 2 litigation and a mere six days before the hearing on the parties' fully briefed cross-motions for  
 3 summary judgment. At the time of settlement, the Court had spent considerable time analyzing  
 4 the parties' summary judgment issues. Moreover, the parties and the Court had much more  
 5 information to assess the risks of litigation and determine whether the class action settlement was  
 6 fair and reasonable under the circumstances. Specifically, in *Yahoo*, the Court denied Yahoo's  
 7 motion to dismiss on August 12, 2014. *In re Yahoo Mail Litig.*, 7 F. Supp. 3d 1016 (N.D. Cal.  
 8 2014). The parties completed fact discovery on May 1, 2015, and the Court certified an injunctive  
 9 class and denied class certification of a damages class on May 26, 2015. *In re Yahoo Mail Litig.*,  
 10 308 F.R.D. 577 (N.D. Cal. 2016). The parties completed expert discovery on August 28, 2015,  
 11 and the parties briefed cross-motions for summary judgment from September 19, 2015 through  
 12 November 16, 2015. *See In re Yahoo Mail Litig.*, Case No. 13-CV-04980-LHK, ECF Nos. 131 &  
 13 135. Furthermore, as the Court found in its order on *Yahoo's* motion to dismiss, Yahoo disclosed  
 14 in its Privacy Policy even before the *Yahoo* lawsuit was filed that Yahoo scanned non-Yahoo  
 15 users' email to Yahoo users. *See In re Yahoo Mail Litig.*, 7 F. Supp. 3d at 1022. Moreover, the  
 16 settlement in *Yahoo* included additional important disclosures regarding scanning of incoming and  
 17 outgoing emails and the sharing of information with third parties. *See In re Yahoo Mail Litig.*,  
 18 2016 WL 4474612, at \*4 (N.D. Cal. Aug. 25, 2016).

19 In the instant case, by contrast, the parties litigated only a motion to dismiss and a motion  
 20 to stay before settlement. The parties have not taken any depositions in this case, and Google has  
 21 only produced documents from prior litigation.<sup>3</sup> Specifically, the discovery in this case has  
 22 consisted of 11 interrogatories and Plaintiffs' review of documents from the *In re Google Inc.*  
 23 *Gmail Litigation*, Case No. 13-MD-02430-LHK. The lead case in *Gmail, Dunbar v. Google*, was  
 24 filed on November 17, 2010. *See* Case No. 10-CV-194-LHK. Fact discovery was scheduled to  
 25 conclude in *Gmail* on May 23, 2014, which was also the date that a majority of the individual  
 26

---

27 <sup>3</sup> Class Counsel represents that their current lodestar is \$1.25 million for this work. H'rg Tr. at 52.  
 28

United States District Court  
Northern District of California

1 plaintiffs in *Gmail* stipulated to dismissal because this Court denied class certification on March  
2 18, 2014. *See* Case No. 13-MD-02430-LHK, ECF No. 176. Accordingly, discovery in *Gmail* was  
3 conducted between three and six years ago. Plaintiffs’ use of discovery produced between three to  
4 six years ago is particularly questionable in this case given that the instant settlement requires  
5 Google to maintain the injunction’s technical changes for only three years because “the  
6 architecture and technical requirements for providing email services on a large scale evolve and  
7 change dynamically.” Settlement Agreement ¶ 34.d.

8 Indeed, the discovery in *Gmail* illustrates how important depositions are in a case such as  
9 this. In *Gmail*, it was not until the July 15, 2011 deposition of Thompson Alexander Ivor Gawley,  
10 Google’s senior product manager for the Gmail system, that Plaintiff Dunbar learned for the first  
11 time that Google was scanning and extracting information from non-Gmail users in the same way  
12 that Google was scanning and extracting emails received by Gmail users. *See Dunbar v. Google*,  
13 2012 WL 6202797, at \*3 (N.D. Cal. Dec. 12, 2012).

14 In sum, based on the parties’ current filings, the Court cannot conclude that the settlement  
15 is “fundamentally fair, adequate, and reasonable.” *Hanlon*, 150 F.3d at 1026. Accordingly, for  
16 the foregoing reasons, Plaintiffs’ motion for preliminary approval of class action settlement is  
17 DENIED.

18 **IT IS SO ORDERED.**
